Certification of CPNI Filing February 1, 2006

Blue Valley Tele-Communications

Blue Valley Tele-Communications hereby submits that its procedures regarding its customers' Customer Proprietary Network Information ("CPNI") are in compliance with Section 222 of the Communications Act of 1934, as amended (47 U.S.C. 222) and 47 CFR §§64.2001-64.2009.

Blue Valley Tele-Communications uses its customers' CPNI in compliance with the Commission's rules in 47 CFR §§64.2001-64.2009. It has provided proper, individual notice to each of its customers and, dependent on use, given its customers the required regulatory time period to either allow usage of CPNI or disallow CPNI usage. Further, on all in-bound calls, customers are given notice that their CPNI may be used and given the opportunity to allow or disallow CPNI usage for the duration of that call.

Blue Valley Tele-Communications's employees, including marketing and sales personnel and customer service representatives, have been educated about CPNI, federal regulations and Blue Valley Telecommunications's statutory responsibility to its customers. Any unauthorized use, sale, or otherwise disclosure of CPNI by any employee would subject the employee to disciplinary action, up to and including immediate dismissal.

Employees may easily determine the CPNI status of individual customers prior to using CPNI. Blue Valley Tele-Communications maintains a written log regarding outbound usage of CPNI including a description of the marketing activity, which products and/or services were marketed and the specific CPNI used. All sales and marketing personnel obtain approval from his/her supervisor of any outbound usage of CPNI. Blue Valley Tele-Communications currently does not sell, rent or otherwise disclose customers' CPNI to non-affiliated entities. If Blue Valley Tele-Communications's affiliates are allowed to access customers' CPNI, then such disclosure is noted in the written log.

In compliance with the Commission's rules, Blue Valley Tele-Communications does not use, disclose or permit access to customers' CPNI for the purposes of identifying customers placing calls to competing carriers.
